Orient 260 hints and gadgets for improving workshop efficiency are contained in Aids to Workshop Practice, by C. T. Bower (Odhams, 18s.). Among the subjects dealt with are assembly methods, marking out, clamping, electrical work, power transmission and lathe work. Most of the ideas and devices are applicable to the requirements of both amateur and professional craftsmen, and though the emphasis is on metalwork, finery of the methods can be adapted to woodwork and other allied crafts.-E.T.W.
