

2013 NATIONAL O SCALE CONVENTION CAR BOSTON AND ALBANY (NEW YORK CENTRAL) HOPPER

Brought to you by the hosting club of the 2013 National O Scale Convention;
The Southern New England Model Railroad Club

The New York Central Railroad (NYC) originally had these hoppers made in their Merchant Despatch shops starting in 1957 as a variation on the Association of American Railroads (AAR) 1956 design. These 3 bay, 14 panel, 70 ton hoppers were used for coal, wood chip and ballast service by the NYC. Starting in 1960, 650 of these hoppers (build lot 865-H) were repainted for NYC's subsidiary railroad, the Boston and Albany (B&A), but kept their NYC oval logos. The 2013 National O Scale Convention cars represent these re-lettered cars.

LIMITED RUN! 12 ROAD NUMBERS!
